

Amber Tscherning

Voice Actor

Passion and Professionalism are the two pillars of my existence. I work with things that interest me, and I give it everything I have. By challenging myself, I've discovered the range I have and have come to realize that every voice has a role that's right for it out there somewhere, just waiting for me to record it. I can't stand to sit around and wait for an opportunity to pass me by or miss out on giving my 110% to a role. So, what are you waiting for?
